第一部分 听力

1.1 考试总览

- 约 30 分钟录音, 共 4 个部分、40 题, 难度递增, 录音只放一遍
- 纸笔考试另有 10 分钟转移答案时间; 机考只有 2 分钟检查时间
- 评分对照 (约): 30 对 = 7 分, 32-33 对 = 7.5 分, 35 对 = 8 分
- 拼写错误、单复数错误均不给分; 大小写不影响给分 (推荐全大写书写)
- 答案必须是录音原词, 填空不需要也不能改写
- 字数限制 (如 NO MORE THAN TWO WORDS AND/OR A NUMBER) 超出直接算错

1.2 四个部分

部分	题号	形式	场景	主要题型
Part 1	1-10	双人对话	生活事务: 订房、报名、租车、咨询	表格/笔记填空
Part 2	11-20	单人独白	导游介绍、活动安排、设施说明	单选、地图题、多选
Part 3	21-30	多人对话	学术讨论: 学生与导师、小组作业	单选、配对、流程图
Part 4	31-40	单人独白	学术讲座: 动物、历史、科技、环境	笔记式填空

Part 1 目标全对; Part 3 是丢分重灾区 (选项干扰、先说后改); Part 4 难在语速与学术词汇, 但笔记小标题是定位路标。

1.3 题型详解与示例

1.3.1 填空题 (表格/笔记/句子)

Part 1 与 Part 4 的主打题型。示例 (Part 1 场景):

BURNHAM SPORTS CENTRE

Name: Sarah **1** _____

Phone: **2** _____

Monthly fee: £ **3** _____

录音: "My name's Sarah Whitmore, that's W-H-I-T-M-O-R-E." → 第 1 题答案 Whitmore (考拼读)。

要点: 预读判断空格词性; 严格照抄原词; 边听边写缩写、间隙补全; 录音里复数 s 很轻, 可借语法判断 (空格前有 many 必为复数)。

1.3.2 单选题

Part 2、Part 3 主场。示例:

21. Why did Mark choose this topic?

- A. His tutor recommended it.
- B. He had personal experience of it.
- C. There was plenty of available data.

录音:“My tutor did suggest a few areas, and I knew the data would be easy to find, but honestly, what decided it was that my family went through something similar.” → 三个选项全部被提到, 信号词 **but honestly** 之后才是真实原因, 答案 B。单选的本质是区分“提到了”和“是答案”。

1.3.3 多选题 (五选二)

Which TWO facilities have recently been improved?

- A. the car park B. the swimming pool C. the changing rooms D. the restaurant E. the tennis courts

录音会提到全部五项: 泳池“将要”翻新(未来, 不算)、餐厅“计划中”(不算), 真正 recently improved 的是 A 和 C。靠排除而不是靠捕捉。

1.3.4 地图/平面图题

Part 2 标志性题型。给平面图, 把设施名称与位置字母(A-H)配对。

“As you come through the main entrance, turn left and you'll see the gift shop directly in front of you, just past the information desk.”

考点全是方位语言: opposite(对面)、adjacent to(紧邻)、at the far end(最尽头)、before you reach(在到达……之前)。读题时先在图上标好入口和参照物, 听时手指跟着录音走。

1.3.5 配对题

一组题目共享一个选项池, 选项通常多于题目(含干扰项)。示例:

这几本书, 学生们分别是什么评价?(选项 A-F, 题目 21-24)

- A. 太难懂 B. 内容过时 C. 例子有用 D. 太贵 E. 借不到 F. 适合初学者
- 21. Global Economics 22. Market Theory 23. Trade in Asia ...

录音:“I tried *Global Economics*, but honestly the language is so academic, I could hardly follow it.” → 21 配 A。

机制: 题目 (左列) 按录音顺序出现, 选项 (右列) 乱序。策略与单选完全不同: 预读时把全部选项读熟并记中文关键词; 耳朵盯左列定位, 脑中在右列扫描; 录音必然同义替换 (选项 out of date → 录音 written in the 1980s); 配过的选项划掉缩小范围 (除非注明可重复使用)。

常见配对对象: 人 ↔ 观点、书 ↔ 评价、地点 ↔ 特色、课程 ↔ 适合人群、步骤 ↔ 负责人。

1.3.6 流程图填空

多见于 Part 3(实验/研究步骤):

Choose topic → collect **28** _____ → analyze results → write **29** _____

按填空题处理, 流程箭头即录音顺序。

1.4 核心技巧

- 预读题目 (最重要):** 利用部分开始前的读题时间和录音开头念规则的时间。做三件事: 圈关键词 (名词、数字、限定词); 预测答案词性; 预判场景。
- 同义替换是出题本质:** 题目词与录音词几乎从不相同 (free → at no cost)。不要死等题目原词——等到的往往是陷阱。
- 信号词防“先说后改”:** but, actually, however, unfortunately, instead, I'm afraid, in fact, rather than, sorry, having said that。听到这些词, 前面大概率是陷阱, 后面是答案。
- 跟丢立刻止损:** 题目与录音顺序一致 (配对题选项除外)。发现跟丢, 立刻放弃跟下一题, 以下一题关键词为锚点。纠结一题会连丢三题。
- 数字字母硬功夫:** thirteen/thirty 重音区别 (thirTEEN vs THIRty)、double 5 = 55、W 读 double-u、quarter to nine = 8:45。
- 精听是课后提升的根本:** 错题段落逐句听写, 最多五遍后对照原文, 标出漏听词并分析原因 (连读/生词/语速), 跟读三遍。每天 15-20 分钟, 重于刷题量。

having said that	The course is quite demanding. Having said that, beginners are welcome.	补充另一面, 两边都可能考

1.5.5 场景开场套路 (4 段)

Part 1 电话预订: 寒暄 → 说来意 → 开始问信息; 第一个答案通常是名字拼写。

Good morning, Riverside Hotel, how can I help you? — I'd like to book a room for next weekend. — Certainly. Could I take your name first? — It's Sarah Kowalski. Let me spell that for you.

Part 2 导游介绍: 欢迎 → 说明布局; 地图题答案跟着方位词走 (left, behind, opposite)。

Welcome, everyone, to Greenfield Nature Park. We're standing at the main entrance. If you look to your left, you'll see the visitor centre, and just behind it, the café.

Part 3 师生讨论: 进展询问 → 坦白问题; 答案藏在一问一答细节里, 尤其 to be honest 之后。

So, Mark, how's the research project coming along? — Well, to be honest, I've run into a few problems with the questionnaire. The response rate was much lower than I expected.

Part 4 讲座开场: 提纲即全篇结构, 对应笔记题小标题顺序。

In today's lecture, I'm going to talk about the history of glassmaking. I'll start with how glass was first produced, then move on to its industrial development, and finally look at some modern applications.

1.6 备考行动清单

1. 词表先行: 11 组词表按组过, 每天 2-3 组, 重点组 1、2、11 (Part 1 直接相关); 配合音频版磨“听到即写对”
2. 每天 5 分钟听写靶场, 数字字母练到条件反射
3. 替换对与信号词通勤被动听, 建立耳感
4. 真题定位: 完整做一套剑桥真题 (剑 16-21), 记录四部分对错分布, 针对弱项部分加练
5. 错题精听: 逐句听写 → 对照原文 → 分析漏听原因 → 跟读三遍
6. 考前一周: 每天一套真题保持手感, 严格计时, 纸笔考练答案转移

第二部分 阅读

2.1 考试总览

- 60 分钟,3 篇文章,40 题,无额外转移答案时间(边做边填)
- 文章来自期刊、杂志、书籍,学术性递增,总阅读量约 2500–3000 词,每篇 13–14 题
- 评分对照(约):30 对 = 7 分,33 对 = 7.5 分,35 对 = 8 分
- 核心矛盾是时间:60 分钟不够逐字读完,考的是定位能力
- 建议时间分配:17 / 20 / 23 分钟(第三篇最难留最多)
- 所有题型的底层考点是同一个:同义替换识别(词级、句式级、概念级)

2.2 题型详解与示例

2.2.1 填空题 (Summary / 句子 / 表格 / 流程图)

给原文改写摘要挖空,从原文找词填,注意字数限制。

原文:Honeybees communicate the location of food sources through a behaviour known as the waggle dance.

题目:Bees use a special _____ to tell others where food can be found.

答案:dance。communicate → tell others 是替换,空格前 a special 判定为名词。

要点:先判词性;答案必须是原文原词;顺序跟原文走。最易上手的题型。

2.2.2 True / False / Not Given

考事实与原文的关系(详见 2.3 专题)。Yes / No / Not Given 判断逻辑完全相同,区别仅在于考的是作者观点(议论性文章)。

2.2.3 段落信息配对 (Which paragraph contains...)

14. a reference to the cost of the project → 在某段找到 “...required an investment of \$2 billion...” → 答案即该段字母

唯一完全乱序的题型,找的是信息点而非段落主旨(答案句可能藏在段中任何位置)。策略:放在同篇其他题做完后再做(文章已熟,速度翻倍)。题干常见信息类型词:example, reason, comparison, explanation, reference。

2.2.4 List of Headings(段落配标题)

从标题列表(i–viii)给各段选主旨标题。

某段:“Local residents initially opposed the plan... However, a survey in 2019 showed attitudes had shifted...” → 整段讲民众态度 → 选 Public reaction to the proposal。

要点: 考主旨不考细节; 读首句 + 尾句 + 转折句 (主旨 80% 在这三处); 干扰项套路是“段落里提到过的细节”——只出现一次的是细节, 反复出现的概念才是主旨。超过 8 分钟果断跳过后收。

2.2.5 单选题

原文:“The team had anticipated gradual shifts over decades; what they had not expected was that the transformation would occur within just five years.”

题目:What surprised researchers? → 答案 The speed of the change(speed 替换 within just five years)。

四个选项通常都能在原文找到影子, 只有一个匹配题干限定词 (surprised)。先圈题干限定词, 定位后用排除法。

2.2.6 人名/理论观点配对

原文:“Professor Okafor argues that rising temperatures alone cannot explain the pattern; in her view, the depletion of food sources plays a far greater role.”

题目:Food shortage matters more than temperature. → 配 Okafor。

要点: 先圈出文中所有人名 (最好定位); 同一人可能被多处引用; 警惕 “unlike Dr. Chen, ...” 句式——后半句观点属于另一个人。

2.2.7 句子首尾配对

题干:The introduction of the new material meant that _____

原文:“Once the polymer replaced steel, manufacturers found their expenses cut by nearly half.”

→ 选 production costs fell dramatically(expenses cut = costs fell)。

双重检验: 语法能接上 (时态、单复数)+ 意思与原文一致。干扰项常语法通顺但原文没说或说反。顺序跟原文走。

2.2.8 简答题

What material were the earliest containers made from?

原文:“The oldest vessels discovered at the site were fashioned from clay.” → 答案 clay。

按填空题处理, 严守字数限制。现考得不多。

2.2.9 做题顺序总原则

- 顺序题 (填空 / TFNG / 单选 / 句子配对 / 简答): 从前往后做, 做题过程即熟悉文章
- 乱序题 (段落信息配对 / Headings): 放每篇最后收
- 上一题答案位置是下一题定位起点

2.3 T/F/NG 专题

2.3.1 判断定义

- TRUE: 题目与原文一致 (通常经同义替换)
- FALSE: 题目与原文矛盾——原文说了相反的内容
- NOT GIVEN: 原文没有提到该信息, 无法判断真假
- 口诀: False 是 “原文反驳了你”, Not Given 是 “原文根本没谈这个”

2.3.2 标准示例

原文: Coffee was first cultivated in Ethiopia... Early European traders initially viewed the drink with suspicion, but by the mid-17th century, coffee houses had become popular meeting places in cities such as London and Paris.

题目	判断	理由
Coffee was first grown in Ethiopia.	TRUE	cultivated → grown 同义替换, 意思一致
European traders immediately embraced coffee.	FALSE	原文 initially viewed with suspicion, 明确相反
Coffee houses in London served the best coffee in Europe.	NOT GIVEN	原文只说受欢迎, 从未比较质量

2.3.3 四大 NG 陷阱模式

陷阱	原文	题目	判断
----	----	----	----

比较级无中生有	Both cycling and swimming are effective.	Cycling is more effective than swimming.	NG, 原文无比较
事实偷换成目的	The policy led to a reduction in traffic.	The policy was introduced in order to reduce traffic.	NG, 结果不等于初衷
范围程度偷换	Some scientists believe the theory is flawed.	Most scientists reject the theory.	NG, some 到 most 无据 (易误判 False)
常识推断	The museum attracts over a million visitors.	The museum is profitable.	NG, 只认原文不认常识

2.3.4 False 的典型伪装: 限定词冲突

原文: The species is found **only** in coastal regions.

题目: The species inhabits **various** environments. → FALSE (only vs various 矛盾)。

对 only, all, always, never, most, main, solely, exclusively 保持条件反射般的敏感。

2.3.5 实操流程

1. 圈题目关键词 (优先专有名词、数字)
2. 回原文定位 (顺序基本一致)
3. 两问: 原文谈这件事了吗? 没谈 → NG; 谈了 → 一致还是矛盾? 一致 → T, 矛盾 → F
4. 全卷三种答案一般都会出现, 一个 NG 都没写大概率有错

2.5 备考行动清单

1. 先吃透 T/F/NG 规则, 做 10-20 题专项建立判断手感
2. 替换库三级逐层过: 词级背记, 句式级做“识别练习”(在真题定位句里找出改写), 概念级培养归纳意识
3. 每篇文章按“顺序题先做、乱序题后收”的流程练, 固化做题顺序
4. 限时训练: 单篇 20 分钟起步, 逐步压到 17-18 分钟
5. 精读复盘: 每篇做完后把所有题的“题目用词 vs 原文用词”对照抄录, 持续扩充自己的替换库
6. 考前: 整卷模考 2-3 次, 严格 60 分钟, 练第三篇的时间保卫战

第三部分 写作

3.1 考试总览

- 60 分钟两篇。Task 1 图表作文, 最少 150 词, 建议 160–190 词,20 分钟;Task 2 议论文, 最少 250 词, 建议 260–290 词,40 分钟
- Task 2 占总分三分之二, 时间与备考精力向其倾斜
- 低于最低字数直接扣任务分; 写多不加分, 只挤占检查时间
- 评分四项: 任务回应、连贯衔接、词汇多样性、语法多样性与准确性
- 典型丢分: 模板痕迹重 (考官对整段背诵极敏感)、例子空洞 (some people 式含糊)、观点未展开就跳转
- 备考哲学: 背整篇范文无用, 可积累的是中间层——功能句骨架、图表语言、话题词汇、结构套路

3.2 Task 1 图表作文

3.2.1 六种图型与两套语言体系

图型	语言体系
线图、柱图、饼图、表格	数据语言: 趋势、比较、占比
流程图、地图	变化语言: 被动语态、步骤连接、方位

3.2.2 固定四段结构

1. 改写题目 (1–2 句, 不得抄原题)
2. Overview 总述 (2 句, 只说最大趋势, 不带数字; 没有 overview 最高 6 分)
3. 细节段 1(带数字, 比较着写)
4. 细节段 2

3.2.3 线图案例

题目:visitors to three London museums, 2000–2020。

改写:The line graph illustrates how many people visited three London museums over a twenty-year period from 2000 to 2020.
(shows → illustrates;the number of visitors → how many people visited;between...and → over a twenty-year period)

Overview:Overall, the British Museum was consistently the most popular of the three and saw the greatest growth. Meanwhile, visitor numbers at the Science Museum remained

relatively stable, while the Design Museum, despite starting from a low base, grew steadily.
(写法: 眯眼看图只答两问——谁最高/涨最多? 整体什么方向?)

细节: In 2000, the British Museum attracted 4 million visitors, roughly four times the figure for the Design Museum. Over the following two decades, this number climbed steadily, reaching a peak of 7 million in 2020.

(数据比较着写, 不逐线孤立报数; 升降词轮换, 同词用两次以上扣词汇分)

3.2.4 静态图 (单一时间点的柱/饼/表格)

不写升降, 只写比较与占比:

Coal accounted for 45% of electricity generation, nearly three times the share of renewable sources. Japan had the highest proportion, at 38%, followed closely by Germany.

3.2.5 流程图案例

题目: how chocolate is produced. 三大件: 顺序连接词 + 被动语态 + overview。

First, ripe cocoa pods are harvested by hand. The beans are then removed from the pods and left to ferment for several days. Once fermentation is complete, they are spread out in the sun to dry.

Overview 套路 (共几步 + 起点终点): Overall, the production of chocolate involves seven main stages, beginning with the harvesting of cocoa pods and ending with the packaging of the finished product.

流程图是送分题型: 内容和顺序全给了, 只需转成被动句串联。

3.2.6 地图题案例

题目: a seaside village in 1990 and today. 变化动词 + 方位:

The most noticeable change is that the farmland in the north of the village was converted into a golf course. A new road was constructed, running from the harbour to the eastern residential area, along which several hotels have been built. Meanwhile, the forest in the southwest was partially cleared to make way for these developments.

Overview 套路 (变化的性质): Overall, the village underwent significant development over the period, transforming from a largely agricultural settlement into a tourist destination.

技巧: 总有东西没变, 写一句 remained unchanged 显得观察全面。方位词与听力 Part 2 地图题完全共享。

3.4 Task 2 议论文

3.4.1 四种题型与结构

题型	提问方式	结构要点
同意与否	To what extent do you agree or disagree?	立场旗帜鲜明 (可 partly agree 但不可含糊); 主体两段支撑; 可加让步段冲 7 分

双边讨论	Discuss both views and give your opinion	两边都必须真讨论, 漏一边砍任务分; 人称管理区分他方与我方
利弊分析	Do the advantages outweigh the disadvantages?	必须给出天平倾向; 结尾点明为何一边压过另一边
问题解决	What are the causes and what solutions?	无需立场; 原因与对策一一对应是条理分关键

3.4.2 主体段展开三步法

观点句 → 解释 (为什么成立) → 例子 (不需真实数据, 但要具体: children from families in debt 远胜 some children)。中国考生最普遍短板: 观点句写完就跳下一个, 解释与例子是空的。

3.4.3 同意与否题范例 (节选)

题目: children should be taught how to manage money at school. Agree or disagree?

开头: Financial literacy has become an essential life skill in the modern world. While some argue that money management is best learned at home, I firmly believe that schools should take responsibility for teaching children how to handle their finances.

主体段 (三步法): The main advantage of school-based financial education is that it guarantees every child receives it. (观点) Not all parents have the knowledge or habits to pass on sound money skills; children from families in debt, for instance, may only ever observe poor financial decisions. (解释) A structured curriculum, by contrast, can systematically cover budgeting, saving and the risks of borrowing, in the same way schools already teach health education. (例证/类比)

让步段 (冲 7 分): Admittedly, some may worry that this would add to an already crowded curriculum. However, financial skills arguably matter more in adult life than several traditional subjects, and even one lesson a week would suffice.

结尾: In conclusion, I am convinced that financial education belongs in the classroom, both because schools can deliver it consistently and because early habits shape lifelong behaviour.

3.4.4 双边讨论题范例 (节选)

题目: university education free for everyone vs students should pay。

他方呈现 (保持距离感):Those who support free university education argue that it promotes social equality. Talented students from low-income families, who might otherwise be deterred by tuition fees, would have the same opportunities as their wealthier peers.

另一方 + 我方 (切换人称):On the other hand, opponents point out that universities require enormous funding, and that graduates, as the main beneficiaries, should shoulder part of the cost. I side with this view, primarily because “free” education is ultimately paid for by all taxpayers, including those who never attend university.

3.4.5 利弊分析题范例 (节选)

题目:more people work from home, advantages outweigh disadvantages?

万能论证框架: 弊是可解决的, 利是结构性的 (反向同样适用)。

弊 (诚实但留余地):Admittedly, remote work has drawbacks. The boundary between professional and personal life can blur, and employees may feel isolated.

利 (篇幅更长理由更硬):Nevertheless, these problems are manageable, whereas the benefits are fundamental. Eliminating the daily commute returns two or three hours to workers each day. Moreover, companies can recruit talent regardless of geography.

结尾点破天平:In conclusion, although working from home poses challenges, I believe the advantages clearly outweigh the disadvantages, since the drawbacks can be mitigated by good management while the gains in time and flexibility are structural.

3.4.6 问题解决题范例 (节选)

题目:young people rarely read books. Causes and solutions?

原因段:The primary cause is the competition from digital entertainment. Short videos offer instant gratification, which makes the slower rewards of reading feel unattractive. A further factor is academic pressure: students are so occupied with exam preparation that reading for pleasure is squeezed out.

对策段 (与原因一一对应):To address the first issue, schools and parents could harness technology rather than fight it — promoting e-books and audiobooks on the very devices young people already use. Regarding the time problem, schools might set aside a regular reading period during the school day.

3.5 Task 2 功能句骨架

骨架与模板的区别：模板整段背、考官一眼识破；骨架是句子级零件，填入自己的内容，无痕迹。

功能	骨架
开头背景	X has become an essential part of modern life. / Recent decades have witnessed a dramatic rise in X.
亮立场	I firmly believe that... / While some argue that..., I would contend that...

3.7 备考行动清单

1. 先攻 Task 2: 四种题型各精写一篇 (不限时), 用三步法自查每个主体段是否“观点-解释-例子”齐全
2. 功能句骨架熟记, 写作时强制自己每篇至少用让步-反驳结构一次
3. Task 1 先背趋势语言库 (封闭集合, 一周可拿下), 再六种图型各练一篇, 重点练 overview 的“眯眼两问”
4. 流程图与地图的被动语态、变化动词单独过一遍 (与数据图语言不通用)
5. 限时训练: Task 2 压到 40 分钟 (审题 5 + 写 30 + 检查 5), Task 1 压到 20 分钟
6. 找参照物: 每写一篇对照考官范文 (剑桥真题册尾附), 对比自己的展开深度与语言密度

第四部分 口语

4.1 考试总览

- 与考官一对一面谈,11-14 分钟,全程录音(用于复议与质检,无需在意)
- 题库制: 每年 1 月、5 月、9 月换题,每次换掉约 30-40% 旧题; 题季内话题池相对固定,可提前准备
- 三个部分:Part 1 日常问答(4-5 分钟) → Part 2 独白卡片(3-4 分钟,含 1 分钟准备) → Part 3 深度讨论(4-5 分钟)
- 评分四项: 流利连贯、词汇、语法、发音。中国考生最普遍短板是流利度——宁可用简单词说得顺,不要用大词说得断
- 发音不求口音,求清晰: 重点自查 th 音(think 不读 sink)、词尾辅音、单词重音(deVELOpment)

4.2 Part 1 日常问答

4.2.1 结构与要求

约 30 个话题池: 必考题(家乡、工作/学习、住所,必考其一)+ 轮换话题。每话题 3-4 个小问题,每题答 2-4 句、15-25 秒。只答一句太短,超过 5 句像背书。

4.2.2 A-R-E 答题公式

Answer(直接回答) → Reason(一个理由) → Example/Extra(小例子或补充)。

示范 “Do you like cooking?”:Not really, to be honest.(A)I’m usually too busy with work, so cooking feels like a chore.(R)Most of the time I just order takeout or make something simple like noodles.(E)

开头自然表达(替代干巴巴的 Yes/No):

- 喜欢:Definitely. / Yes, quite a lot. / I’d say so.
- 不喜欢:Not really, to be honest. / I’m not a big fan of...
- 看情况:It depends. / Sometimes, but not always.
- 没想过:That’s an interesting question. I’d probably say...

4.2.3 必考三话题完整答案(个人定制版)

话题 1 家乡

Q: Where is your hometown?

My hometown is Changsha, the capital of Hunan Province in central China. It’s famous for its spicy food and, more recently, for being a popular tourist city among young people.

Q: Do you like your hometown?

Definitely. The food culture is amazing — I grew up eating spicy dishes, and honestly no

other city's food quite compares. Also, people there are very warm and straightforward.

Q: Has your hometown changed much?

A lot, actually. The metro system was built quite recently, and the riverside area has been completely redeveloped. It feels much more modern than when I was a child.

Q: Would you like to live there in the future?

Maybe after I retire. My parents still live there, so I visit regularly. But for now, my work and my own family are settled elsewhere.

话题 2 工作

Q: What do you do?

I work in scientific research. My work involves running experiments, analyzing data, and publishing papers — actually I've just finished the publication process for one recently.

Q: Do you enjoy your job?

Mostly, yes. What I enjoy is the sense of discovery — you're always exploring questions that nobody has fully answered before. The stressful part is the deadlines and the pressure to publish.

Q: Why did you choose this career?

I've been curious about how things work since I was a kid, so research felt like a natural path. I followed this direction through university and just kept going.

Q: Do you plan to change your job?

Not really. I'd like to go deeper in my field, maybe lead my own research projects in a few years.

话题 3 住所

Q: Do you live in a house or an apartment?

I live in an apartment with my wife and our child. It's not very big, but it's comfortable and close to my workplace.

Q: What's your favorite room?

The living room, because that's where the whole family spends time together in the evenings — my kid plays there while my wife and I chat or watch something.

Q: Is there anything you'd like to change?

Well, actually we're about to move to a new, bigger apartment soon. We've just finished renovating it, so the main thing on my mind is making sure the air quality is good before we move in, especially for our child.

Q: Will you move in the future?

Yes, very soon actually — probably in the next couple of months. The whole family is really looking forward to it.

4.2.4 万能理由库 (跨话题复用)

场景	理由
喜欢某事物	It helps me unwind after a long day. / It's a good way to spend time with friends or family. / I always learn something new from it. / It gives me a real sense of achievement.
不喜欢/不做	I'm usually too busy with work, so I rarely find the time. / I prefer X instead, it suits me better. / I'm honestly not very good at it, which makes it less fun.
频率类	Only at weekends, because weekdays are pretty hectic. / I used to do it a lot, but much less now since I started working.
变化类	Technology has completely changed that — in the past..., but now everyone just uses their phones. / My habits changed a lot after I started working / had a child.
将来类	I'd love to, if I can find the time. / Probably, once things settle down at work.
救场	I've never really thought about it, but I suppose... / Off the top of my head, I'd say...

跨话题演示 (“太忙” 一个理由覆盖多话题):

- 运动: Not as often as I should. I'm too busy on weekdays, so I only jog at weekends.
- 做饭: Rarely. Work keeps me busy, so I usually just order takeout.
- 阅读: I used to read a lot, but these days I mostly just read before bed.

4.3 Part 2 独白卡片

4.3.1 机制与策略

题库每季约 50 张卡片, 分四大类: 人物、地点、事件/经历、物品 (偶有抽象类)。1 分钟准备 (只写 3-5 个关键词, 按 “背景 → 故事 → 感受”), 讲 1-2 分钟。

核心策略: 六个母故事覆盖全题库。考试时判断卡片类别, 把对应故事开头一句改成卡片问法, 主体几乎不动。

4.3.2 讲述四段结构

1. 开场定位 (15 秒): The X I'd like to talk about is... I first came across it when...
2. 背景描述 (30 秒): 回答卡片上的 who/what/where/when
3. 具体故事 (45 秒, 拿分关键): I still remember one time when... 细节越具体越真实
4. 感受收尾 (20 秒): Looking back, I'd say... That's why it means a lot to me.

卡住缓冲句:How can I put it... / What else can I say about this...
时间不够就在故事部分加细节 (对话、天气、心情), 不加新话题。

4.3.3 六个母故事 (个人定制稿版)

故事 1 三亚家庭游 (地点/旅行类)

Last summer, I took a trip to Sanya, a tropical city on Hainan Island, with my wife and our child. We spent four days there, playing on the beach, trying fresh seafood, and enjoying the warm sea breeze. It was actually our first proper family trip since our child was born, so it meant a lot to us. What made it really memorable was one evening when we got lost looking for a famous seafood market. An elderly local man not only gave us directions but walked us there personally, chatting the whole way. The market was amazing — grilled fish, fresh coconuts, street musicians. My kid was fascinated by everything, and seeing that excitement made the whole trip worth it. Looking back, it wasn't the attractions that made it special, but these small moments together as a family.

故事 2 研究生导师 (人物类)

The person I'd like to talk about is my supervisor from graduate school, Professor Li. He's in his fifties, always calm, and incredibly knowledgeable in our field. What impressed me most was his patience. I still remember when my first experiment failed repeatedly and I was ready to give up. Instead of criticizing me, he spent a whole afternoon going through my data with me, and said something I'll never forget: "In research, failure is just data you didn't expect." That completely changed how I see setbacks. His guidance shaped not only my research skills but also my attitude toward difficulties in general. Even now that I've started my own career, I still contact him for advice sometimes. He's definitely the person who influenced my professional life the most.

故事 3 黑色 MacBook(物品类)

The object I want to describe is my MacBook, which my wife gave me as a birthday gift about three years ago. It's a black laptop, slim and light, and it has become the most important thing I own. As a researcher, I basically live on this machine — I use it to analyze data, write papers, and prepare presentations. I remember once I had to finish revising a paper overnight before a deadline, and it ran smoothly the whole night without a single problem. But what makes it special isn't just its performance. My wife saved up and chose it carefully because she knew my old computer kept crashing and driving me crazy. So every time I use it, I'm reminded of her support. For me, it's not just a work tool; it represents someone believing in what I do.

故事 4 学会游泳 (成就/技能/运动类)

I'd like to talk about the time I learned to swim as an adult, which was a real challenge for me. I'd been afraid of water since childhood, so even standing in the shallow end made me nervous. Two years ago, I finally decided to face this fear — partly because I realized that as a father, I'd need to take my kid swimming someday, and I didn't want to be the dad standing outside the pool. So I signed up for a beginner's course. The first few lessons were honestly embarrassing — I was the slowest one in the group, and most of my classmates were teenagers. But I kept practicing twice a week after work, and my coach taught me to relax instead of fighting the water. After about two months, I managed to swim a full lap for the first time. I still remember touching the wall and feeling incredibly proud. The first person I told was my wife, and she couldn't believe it. This experience taught me that most limitations exist mainly in our heads.

故事 5 孩子的生日聚会 (事件/聚会类)

The event I'd like to describe is my child's birthday party last year, which we held at home. It wasn't a big event — just our family plus my parents, who traveled from Changsha especially for it. My wife spent the whole morning decorating the living room with balloons, and I was in charge of the cake. The highlight was when we brought out the cake and sang the birthday song. My kid's eyes went so wide at the candles, and then tried to grab the flame — luckily my wife was quick! Everyone burst out laughing. Afterwards, we took lots of photos, and one of them is now the wallpaper on my phone. It was a simple celebration, nothing fancy, but honestly it was one of the happiest days of the year for me. Watching my parents playing with their grandchild made me realize that happiness often comes from these small family moments.

故事 6 家附近的咖啡馆 (场所类)

The place I want to talk about is a small café near my home called Corner Coffee. It's a quiet shop on a side street, with wooden furniture, soft music, and big windows facing a row of trees. I found it about a year ago when I needed somewhere quiet to work on a paper, and now I go there almost every weekend. The owner is a friendly middle-aged man who already knows my usual order. What I love most is the atmosphere — peaceful but not lonely. With a young child at home, it's honestly hard to concentrate there, so this café has become my little escape for deep work. Some of my best writing was done at that corner table by the window. For me, it's not just a café; it's my second office.

4.3.4 覆盖地图

母故事

可覆盖卡片

1 三亚家庭游	难忘的地方 / 想再去的地方 / 靠水的地方 / 一张照片 / 和家人的活动 / 天气影响计划 / 第一次做某事
2 导师	敬佩的人 / 帮助过你的人 / 教会你某事的人 / 想共事的人 / 重要的谈话 / 一起工作学习的人
3 MacBook	重要物品 / 收到的礼物 / 一件设备 / 帮助学习工作的东西 / 想推荐的科技产品
4 学游泳	学到的技能 / 一项运动 / 克服恐惧 / 达成的目标 / 骄傲时刻 / 困难的决定 / 健康活动
5 孩子生日聚会	聚会 / 庆祝 / 家庭活动 / 快乐时刻 / 让你大笑的事 / 喜欢的照片 / 和家人一起做的事
6 咖啡馆	安静的地方 / 学习工作的地方 / 常去的场所 / 城市里喜欢的地方

套题方法: 开头一句改成卡片问法即可, 如卡片问 “a place near water” → The place near water I'd like to describe is Sanya...

遇到明确要求大型活动的卡片, 故事 5 临场放大规模 (亲戚都来了/结合春节团聚)。

4.3.5 防背诵痕迹

- 背要点和故事线, 不逐字背
- 保留口语不完美: well, you know, 偶尔自我修正 (it was... actually it was four days)
- 听音频熟悉后必须过渡到自己复述, 与原文有出入反而是好事

4.4 Part 3 深度讨论

4.4.1 机制

跟随 Part 2 话题延伸, 4-6 个问题, 由浅入深 (社会现象 → 抽象层面)。无法背答案, 考观点组织能力, 背的是结构与句型。

单个回答 30-45 秒、4-6 句: 少于 20 秒显得展不开; 超过 1 分钟易跑题被打断。说完一轮结构主动停, 把球交回考官。考官顺势追问 (Can you give an example?) 只需 15-20 秒短答。

4.4.2 P-E-E-L 结构

Point 观点 → Explain 解释 → Example 例子 (社会现象或身边人, 不总说自己) → Link/让步收尾。

示范 “Why do people like traveling?”: I'd say the main reason is escaping routine. (P) Most people's daily lives are quite repetitive, so travel gives them a sense of freshness. (E) For

instance, many of my colleagues save up all year just for one big trip.(E)Having said that, some people travel more for social media photos than the experience itself.(L)

4.4.3 句型库 (八组)

功能	句型
给观点	I'd say the main reason is... / From my perspective... / There are several factors, but the most important one is... / Generally speaking, ...
争取时间	That's a tough one. Let me think... / I've never thought about this before, but I suppose... / How can I put this... / It's hard to generalize, but...
解释展开	What I mean is... / The reason behind this is that... / This is largely because... / In other words, ...
举例	Take my hometown as an example... / A good case in point is... / For instance, in China, ... / This is especially true for young people...
对比让步	Having said that, ... / On the flip side, ... / It really depends — for..., but for... / While it's true that..., we shouldn't ignore... / That was the case in the past, but things have changed.
趋势	There's been a growing trend of... / Compared with a couple of decades ago, ... / This is becoming increasingly common, especially in big cities.
将来预测	I imagine that in the future... / It's quite likely that... / If this trend continues, ...
两面性	It's a double-edged sword. / There's no simple answer to this. / It varies from person to person.

4.4.4 万能思考角度 (卡壳救命框架)

人群对比 (年轻 vs 年老 / 城市 vs 农村 / 过去 vs 现在)、科技角度、经济角度、家庭教育角度、政府社会角度。

演示 “Do people read less than before?”: 抓人群 + 科技两个角度 → 年轻人转向短视频, 但有声书电子书让通勤族读得更多 → 不是读得少了, 是形式变了。

4.4.5 个人人设优势

- 科研工作者: 教育、科技、创新话题可说 In my field of research...
- 父亲: 孩子、教育、家庭话题可说 As a parent myself...
- 湖南人: 城市发展、旅游、饮食话题拿长沙举例

4.5 考场注意事项

- Part 2 准备时间一定动笔写关键词; 讲时看卡片不算作弊
- 没听清就问: Sorry, could you say that again? / Could you rephrase that? 不扣分, 瞎答才扣分
- 考官面无表情、打断你、突然换话题, 都是正常流程, 不代表答得差
- 听不懂 Part 3 抽象问题时, 用争取时间句型 + 万能角度现场组织

4.6 备考行动清单

1. 每天听口语音频 + 跟读, 先磨熟六故事和 Part 1 三话题
2. 从“听熟”过渡到“自己复述”, 录音回听检查背诵痕迹与发音 (th 音、词尾辅音、重音)
3. Part 3 只背句型库和思考角度, 配合 P-E-E-L 做即兴练习 (自问自答或找搭档模拟)
4. 考前 2-3 周: 查当季题库, 把 Part 2 卡片逐张对照六故事确认落点, 个别套不上的单独准备要点
5. 考前 1 周: 全真模拟掐时间, 录音回听
6. 考前一天: 只过要点, 不学新内容

附录 四科统筹节奏建议

1. 口语与听力材料已有音频版, 通勤等碎片时间循环; 阅读与写作依赖本手册纸面学习
2. 每周至少一次整卷模考 (先分科后整卷), 模考后按各科行动清单复盘
3. 语言材料的复用关系: 听力替换对 = 阅读替换库的子集 = 写作换词库; 听力地图方位词 = 写作地图题方位词; 口语 Part 3 让步结构 = 写作让步段——四科打通记忆, 一份材料多处受益
